

ARMET

spazio alla vita

www.armet.it

Space for living

A cabinet is not just a geometrical form made of wood or metal. For those who use it, **it is a special space where precious objects and memories are kept.** We could say that everyone has his own custom-made cupboard: our job is to understand which one. For this reason, Armet designs and builds its lockers and steel furniture with special care and attention to make them **solid and functional, as well as colorful and cheerful, comfortable and safe.**

Office & Design

A cabinet is never just a cabinet.

If conceived with elegance and style, it can become a true element of design that blends harmoniously into the environment. **Examples are the Creo and Schedo series**, which are perfect for the most elegant interiors and offices.

Industry and turnkey project

Safety, functionality, durability.

The needs of those looking for a locker can be diverse. At Armet, we know them all, and over the years, thanks to the **Classico, Quadro and Tecno series**, we have been exploring suitable solutions for every context (especially for industries and public spaces)

Creo

A new way to conceive the office: simple and elegant lines, these cabinets can be customized through high-resolution printed colors and textures. Various solutions that make your workplace unique.

Schedo

The most practical and useful for everyday activities. Archiving, classifying, filing: everything is designed to keep Office documents in perfect order and in complete security.

Quadro

The design of these wardrobes and multi-compartments is conceived to enhance the liveliness of the colors. Thanks to the numerous accessories that are suitable for all needs, this series is the ideal solution for schools, gyms and wellness centers.

Classico

Traditional lockers characterized by classic and essential lines. This solution has the best quality-price ratio for the industrial world, and is suitable for every working situation.

Tecno

A line designed for special applications, such as police forces, fire brigades, to contain chemical products or flammable liquids, there are also outdoor, cleaning and storage rooms cabinets.

Essential, simple, customizable through colors and textures.

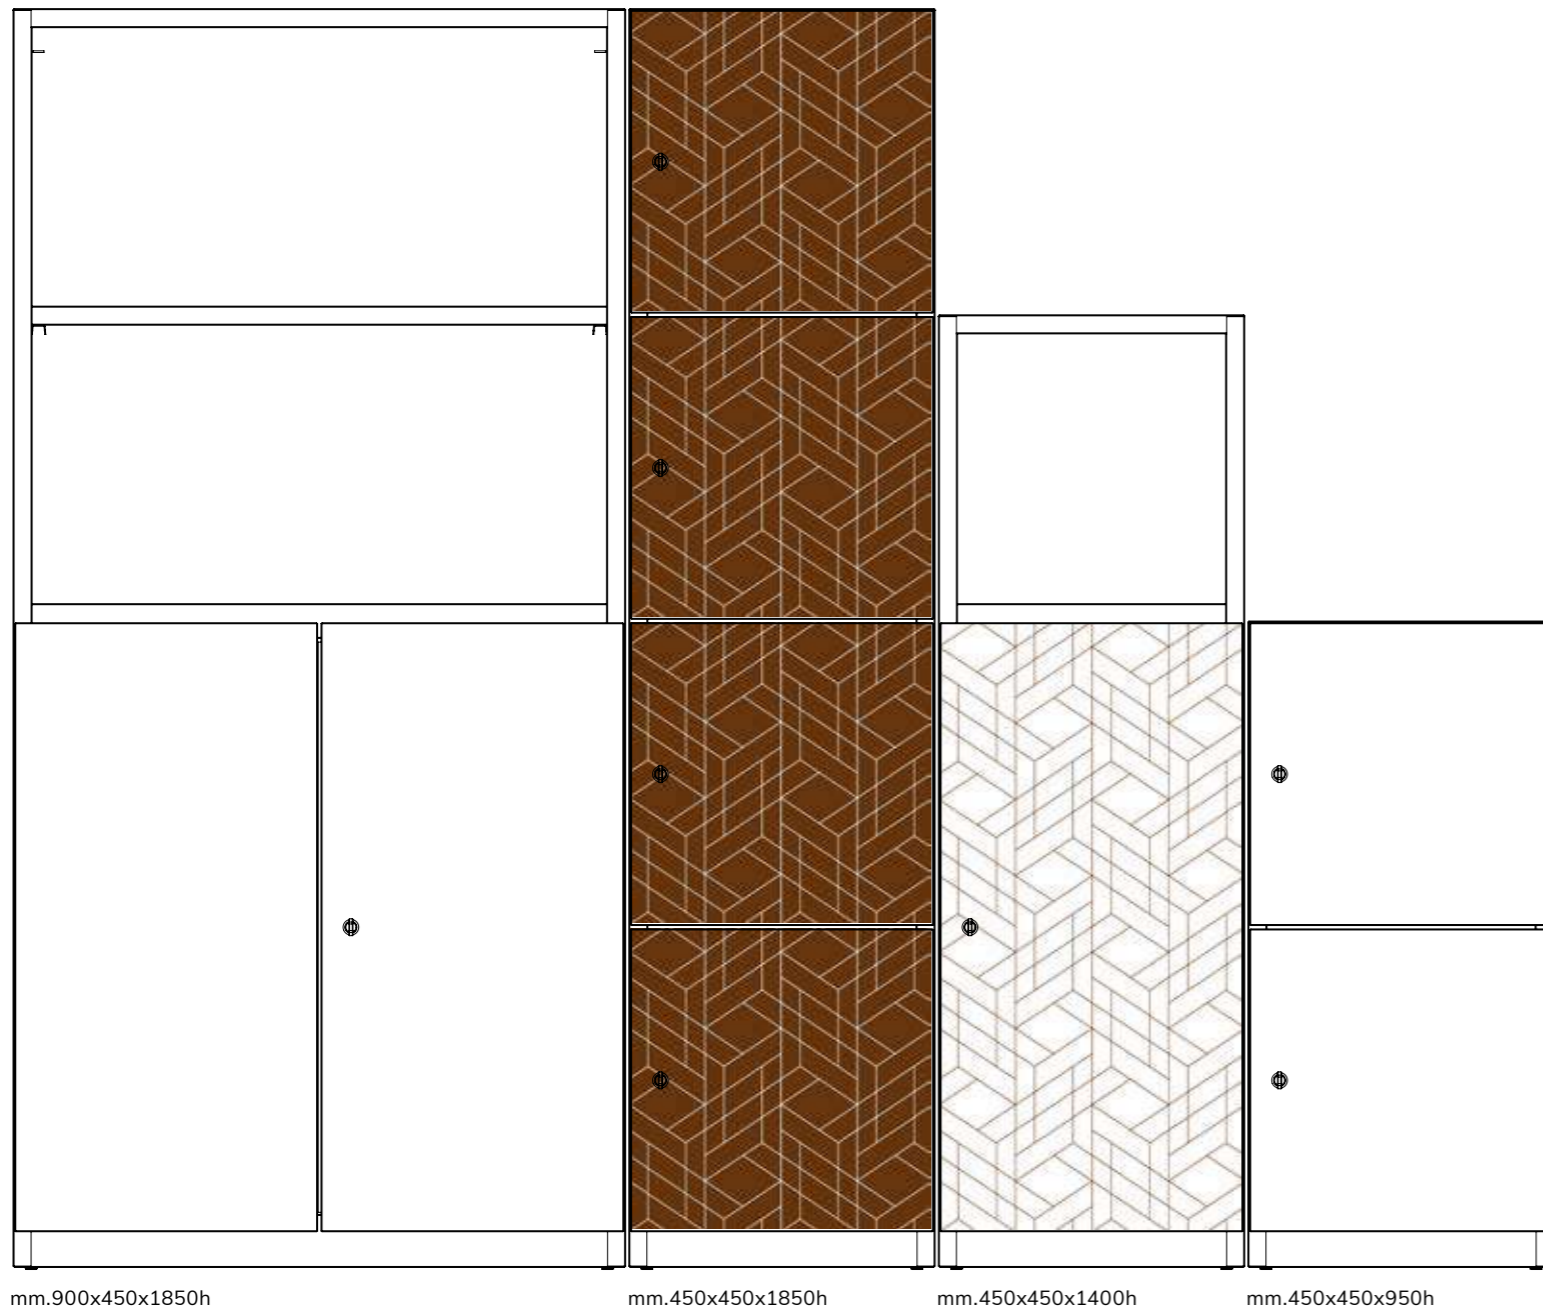

Depth: 450 mm. External doors

Width: 450/900 mm

Height: 950/1400/1850 mm

Recessed base 50 mm high

Security cylinder lock with 3-lever lock, adjustable feet with micrometric height adjustment, compartments with doors or open, shelves, accessories, colors and textures as an option.

mm.900x450x1850h

mm.450x450x1850h

mm.450x450x1400h

mm.450x450x950h

The new concept of customization of metal cabinets in the office: textures and colors are blended to create elegant settings that meet the needs of modern work places without sacrificing unique and refined aesthetics.

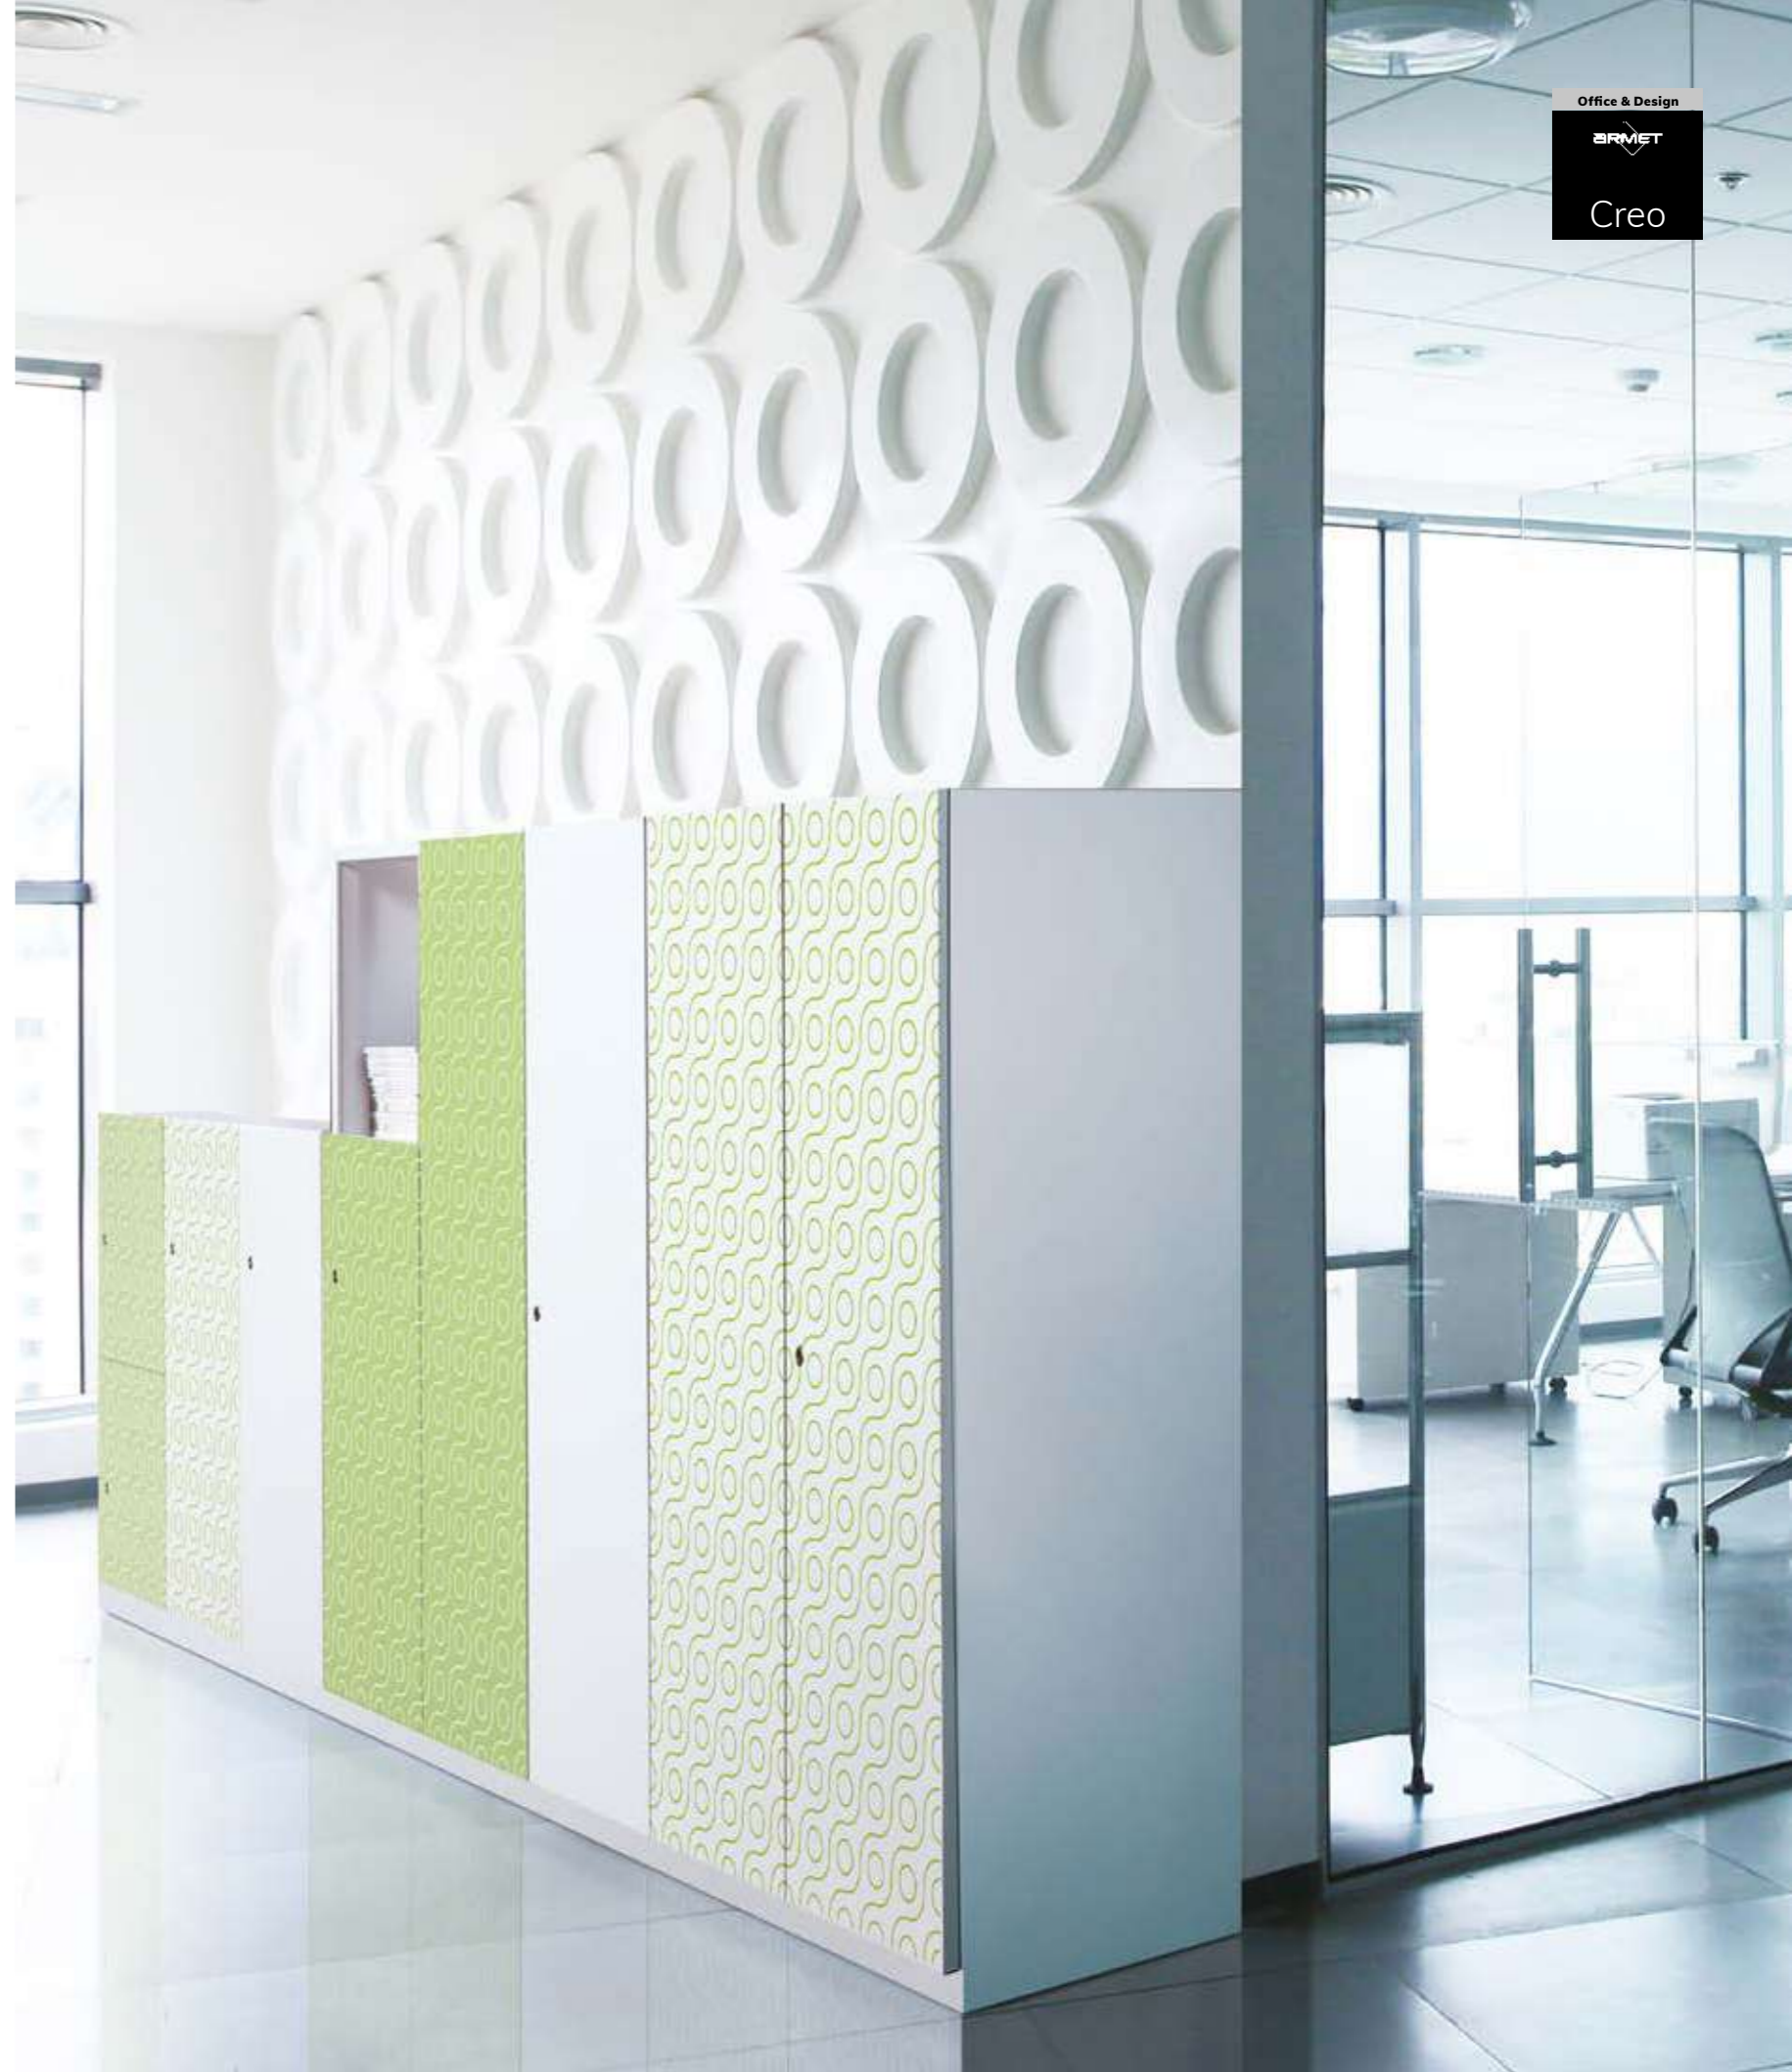

A modular system that allows the personalization of interiors, with shelves or as a locker. The range of possible customizations is almost unlimited, thanks to a wide range of decorations, which can be suggested by the customer and that can be realized in series on each door or continuously on several cabinets placed side by side. In this way, the cabinet becomes a canvas on which your own imagination can be limitlessly expressed, also in the office. All this is "Creo": the solution that adapts to the new working places' needs, from Smart Working to Co-Working, and that, thanks to its flexibility, allows groups of people to combine their competences by creating a dynamic and stimulating working place while getting rid of the limitations of the static work-station.

mm.450x450x1850h

Texture suggestions for rotating compartments for shopping centers.

Texture suggestions applied on locations such as archives or operational offices.

Example of furniture of an open space office, with cabinets in different heights and a mix of white and colored doors. Special texture in coordinated colors.

Special textures for the waiting area of an executive office.

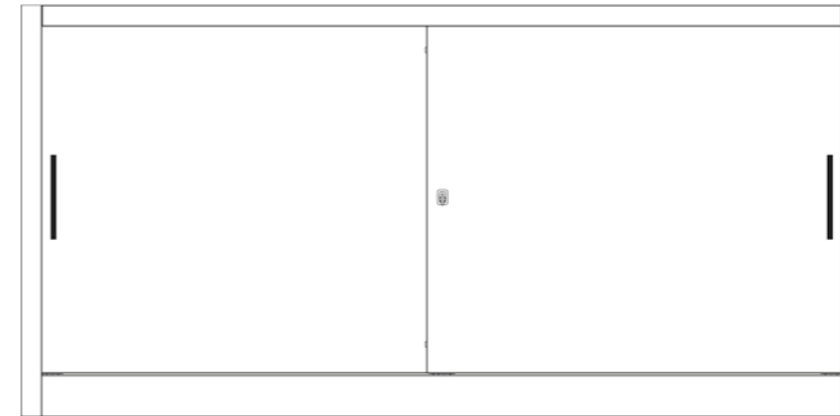

Cabinets with hinged or sliding doors, also made of glass, cabinets with rolling doors, filing cabinets and multi compartments.

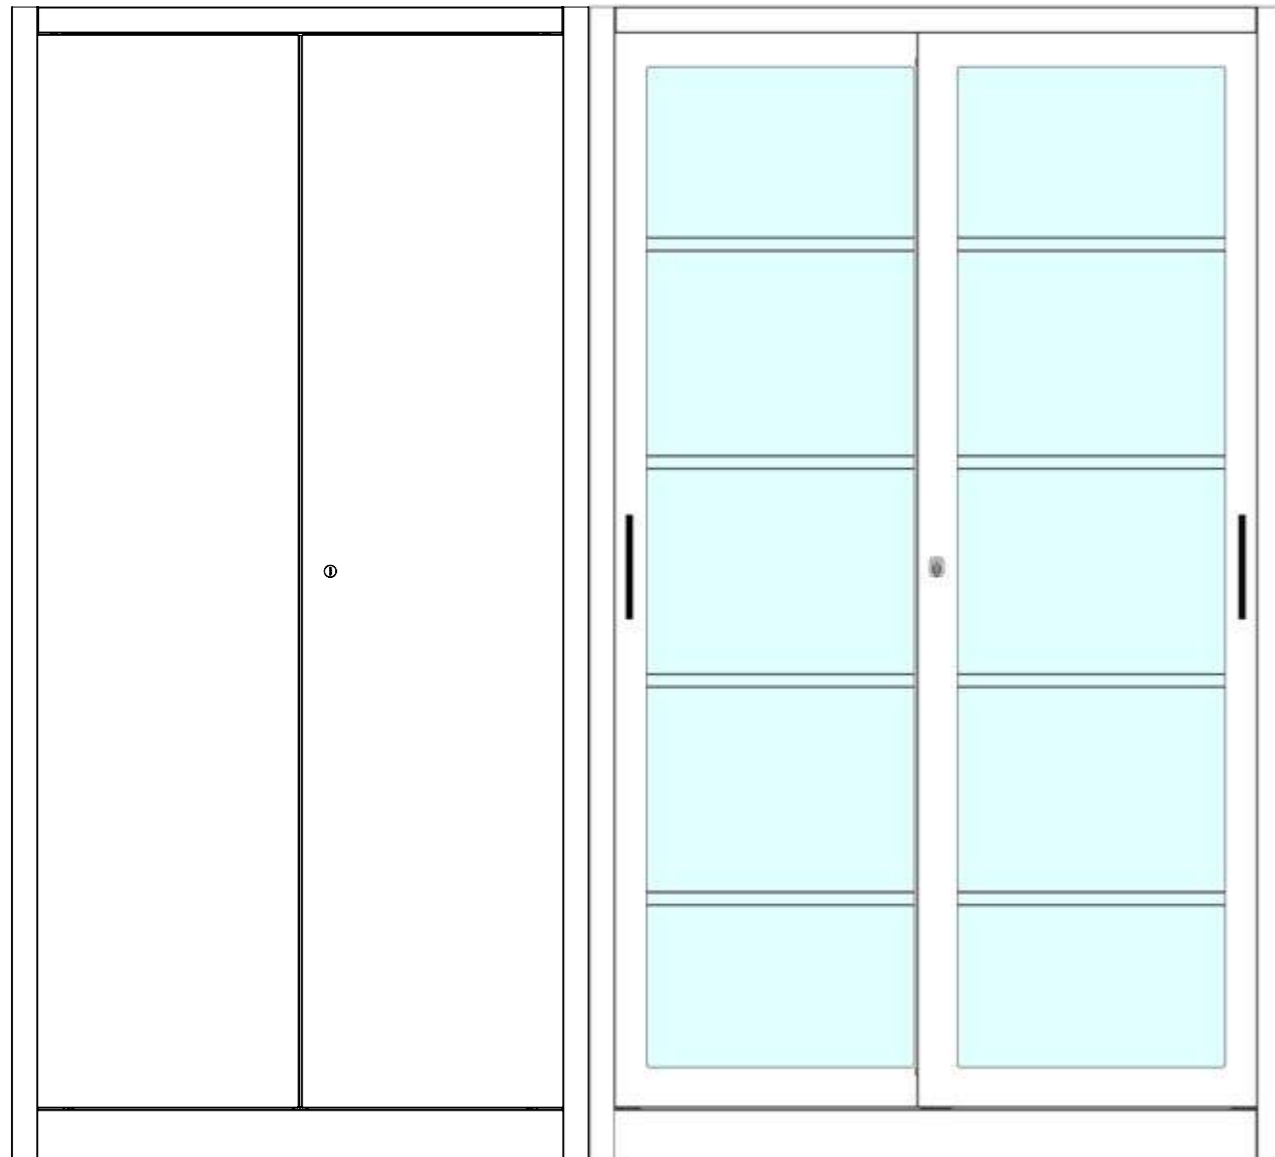

Depth: 450 mm

Width: 1000/1200/1500/1800 mm

Height: 680/880/2000 mm

mm.150x450x880h

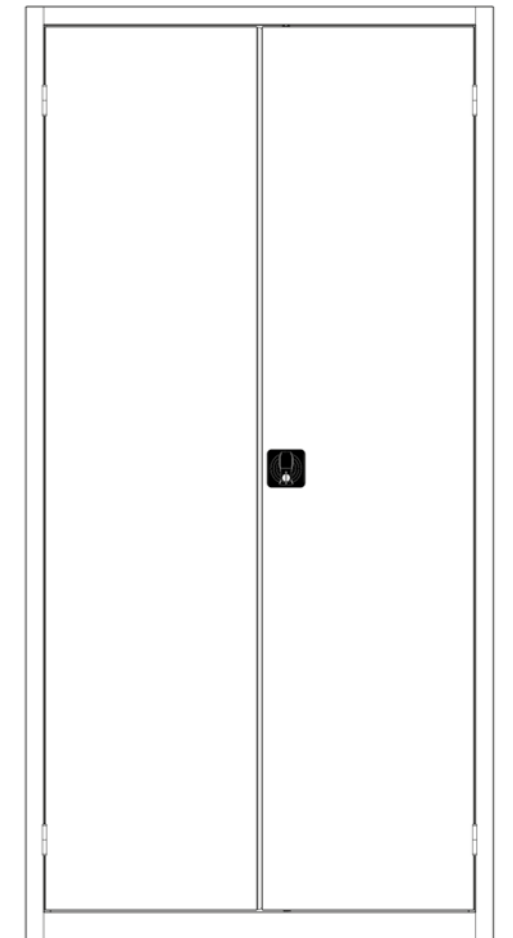

mm.1000x450x2000h

mm.1200x450x2000h

Clean lines and convenience are the key points of the solutions designed for filing and office's needs. A furnishing that enhances the spaces thanks to the possibilities of customization, with open, closed or glass doors.

The Schedo archiving line includes welded or knocked-down metal cabinets, with hinged, sliding and tambour doors, filing and multi-compartments built in 0,8 mm thick first quality steel sheet. The safe-ty cabinets are manufactured in a material thickness of 1,2 or 3 mm.

The epoxy powder coating in the colors gray, gray metallic, white or black is carried out by an automat-ed system. The process divides into following phas-es: phosphating, rinsing, drying, powder coating with electrostatic method, powder polymerization in the oven, at 180 ° for 20 minutes.

mm.100x450x2000h

Cabinet with glass doors.
Detail of the handle and
locking system.

Handle and lock with flip key.

Filing with hanging folders for horizontal and vertical reading.

Top cabinets with doors and sliding ladder on holder guide-rails.

Lockers, multi-compartments, combination cabinets, and with Z-doors characterized by square hole patterns and handle with card holder.

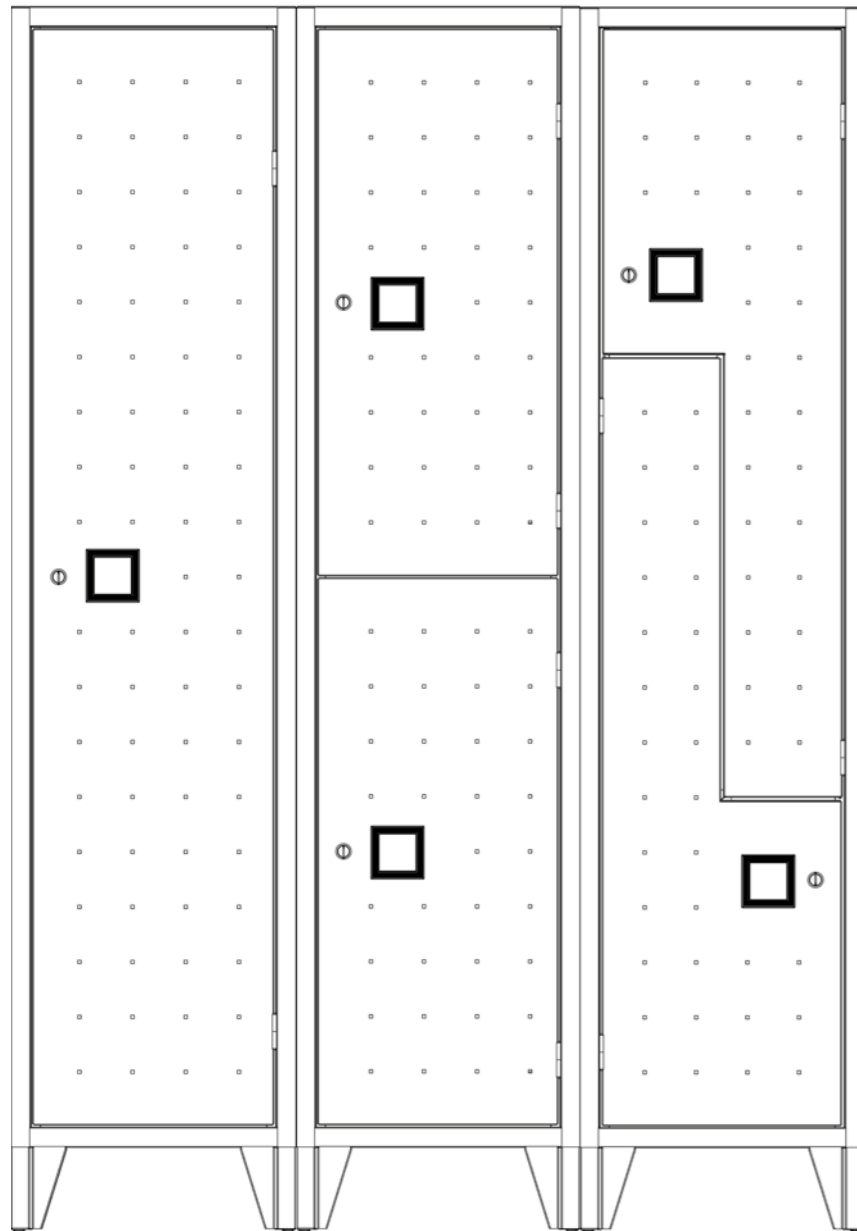

Depth: 500 mm

Width: 420/810/1200 mm

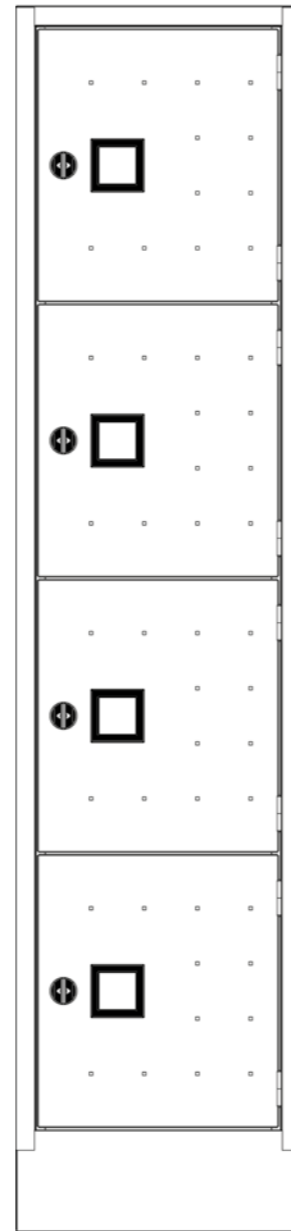

Height: 1800 mm

Available with 1/2/3 doors, or 1/2/3/4/6/8/9/10/12/15 compartments.

Different integrated locking systems. Feet or plinth, different colors and extra options available.

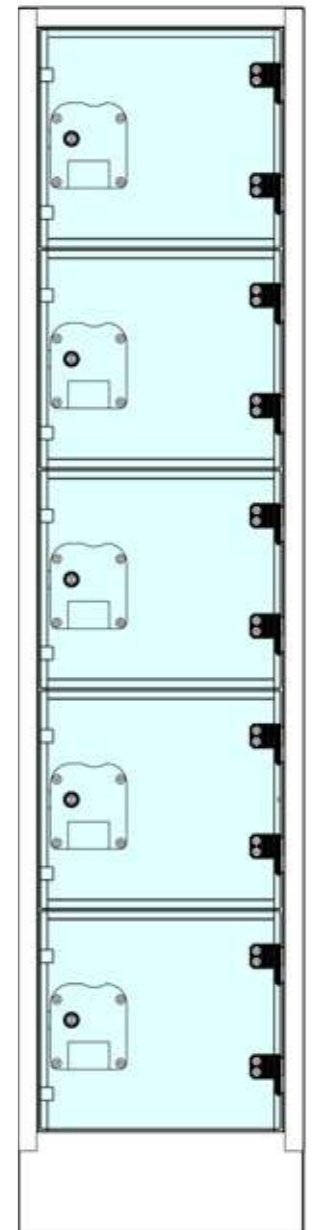

mm. 420x500x1800h

mm. 420x500x1800h

A more dynamic view of the cabinet, characterized by a great variety of bright colors and contrasts. The study of the details enhances its convenience and the various formats meet every space requirement.

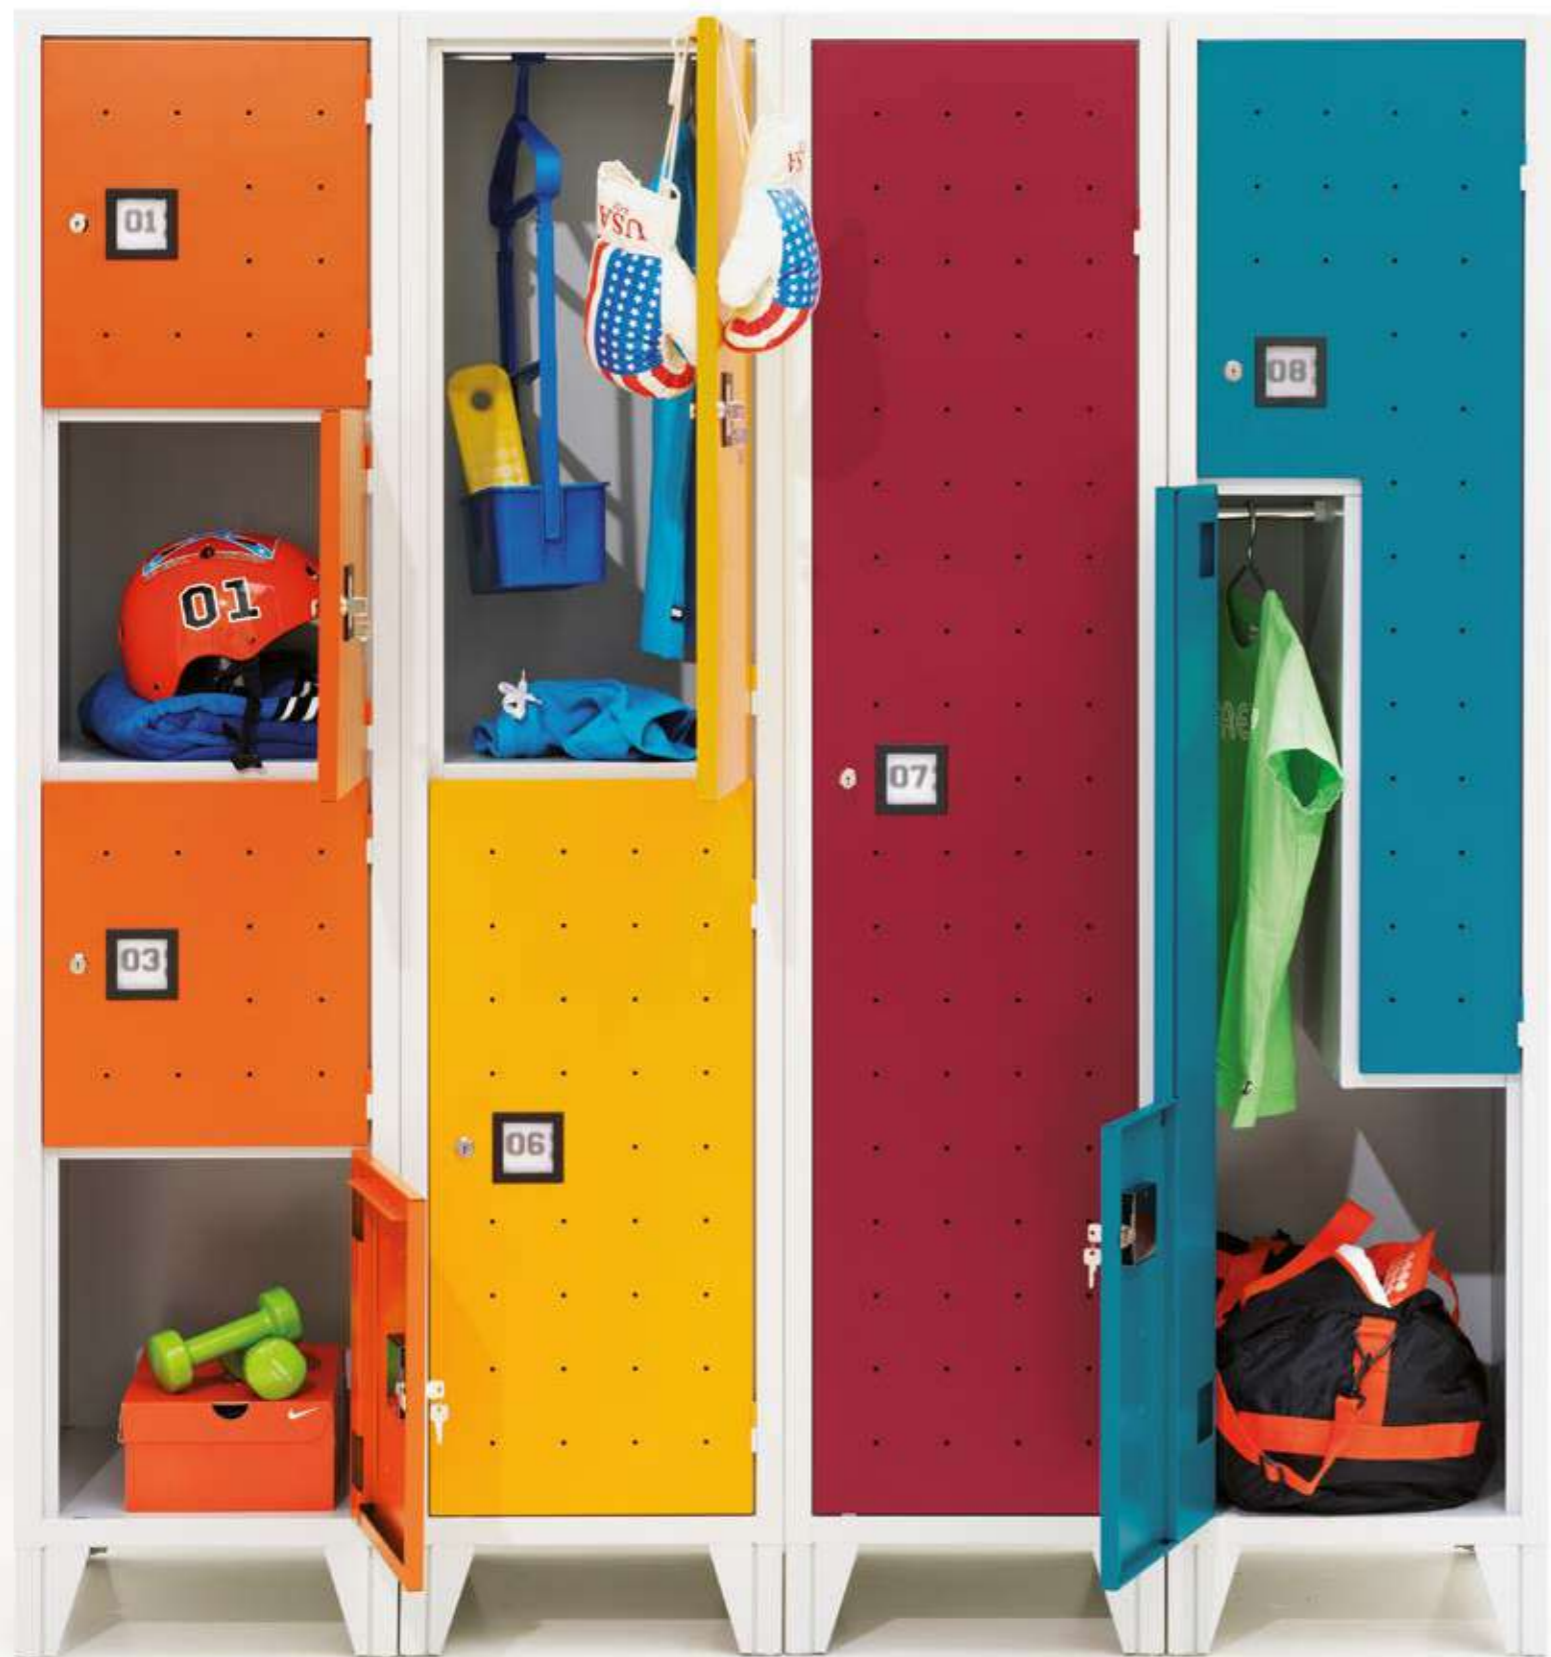

Characterized by shiny colors, hole patterns on the door and square handles with card holder, this series consists of traditional lockers, combination lockers, Z doors or multi-compartments. Made of first quality steel sheets with refolded edges, feet with plastic tips arranged for adjustable foot, frontal and lateral plinth. Door with 180° opening angle with theft-proof hinges and omega for internal reinforcement. Yale type lock with flat key, padlock handle, coin lock and electronic or mechanical combinations. Painting with epoxy-polyester powder carried out through automatic machinery according to the following phases: phosphate-treatment, flushing, drying, powder projection with electrostatic procedure, powder polymerization at 180°.

mm. 420x500x1800h

Gym with double store lockers and multi-compartments in different colors. Benches with backrest and bag carrier.

Examples of different solutions and applications. On the right, details of the hole patterns, handle, locking systems and solution with support bench.

Traditional lockers for different applications.

Depth: 330/500 mm

Width: 322/360/380/420/525/615/690/810/907/950 /1020/1200 mm

Height: 400/1800/1820/2160 mm with full doors or as a double-deck locker,

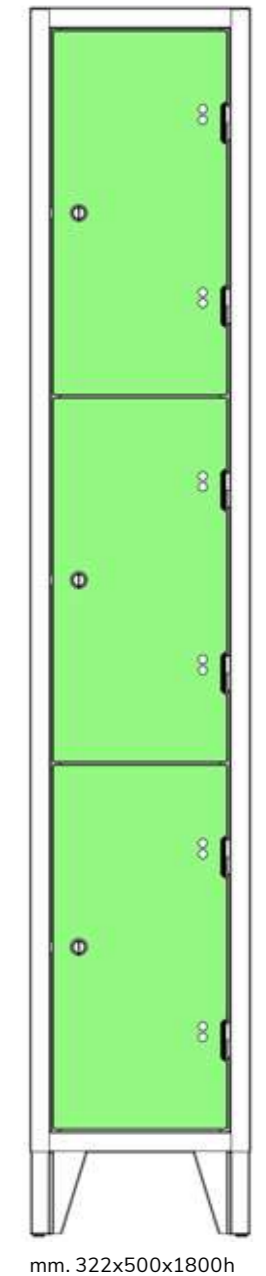

Available with 1/2/3/4 columns, or

3/4/5/8/10/12/15/20 compartments, including accessories and various locking systems.

The locker which meets the canonical stylistic re-quirements. The timeless style is enhanced by the high quality of the raw material and the variety of colors. Available with double color of doors and body.

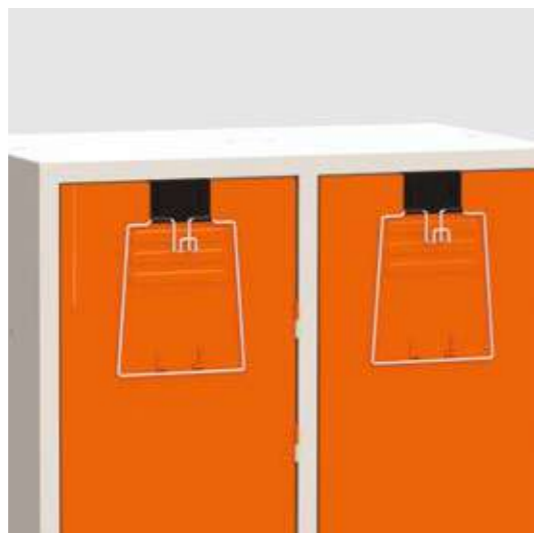

Traditional lockers with division wall, shoe holder, Z-lockers, multi-compartments. Made of first quality steel sheets with refolded edges, feet with plastic tips arranged for adjustable foot, frontal and lateral plinth. Customizable according to different needs, Door with 180° opening angle with theft-proof hinges, ventila-tion holes, card holder and metallic towel holder. Yale type lock with flat key, padlock handle, coin lock and electronic or mechanical combinations. Painting with epoxy-polyester powder carried out through auto-matic machinery according to the following phases: phosphate-treatment, flushing, drying, powder pro-jection with electrostatic procedure, powder polym-erization at 180°.

Lockers of different types, top cabinets and benches. Detail of the wardrobe "ADA": wardrobe for the disabled with clothes lift that allows a perfect use.

Example of complete composition and optimal use of space with a cabinet on the supporting bench, low cabinet and top cabinet. Detail of the height-adjustment system by means of adjustable feet.

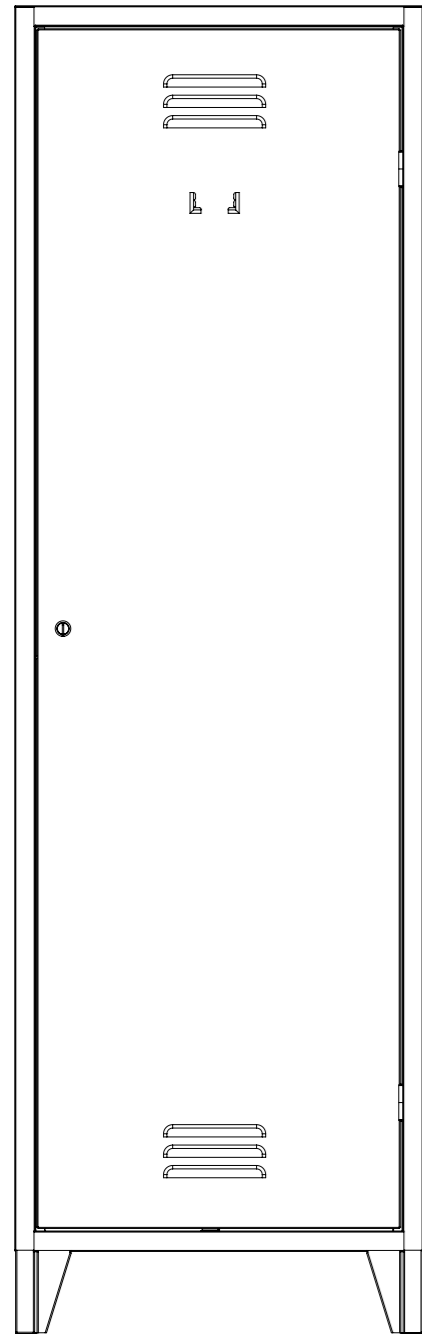

Examples of lockers with colored doors.

Details of the shoe shell made of waterproof and washable material designed to keep the shoe compartment clean. Details of the towel holder and bathrobe hook.

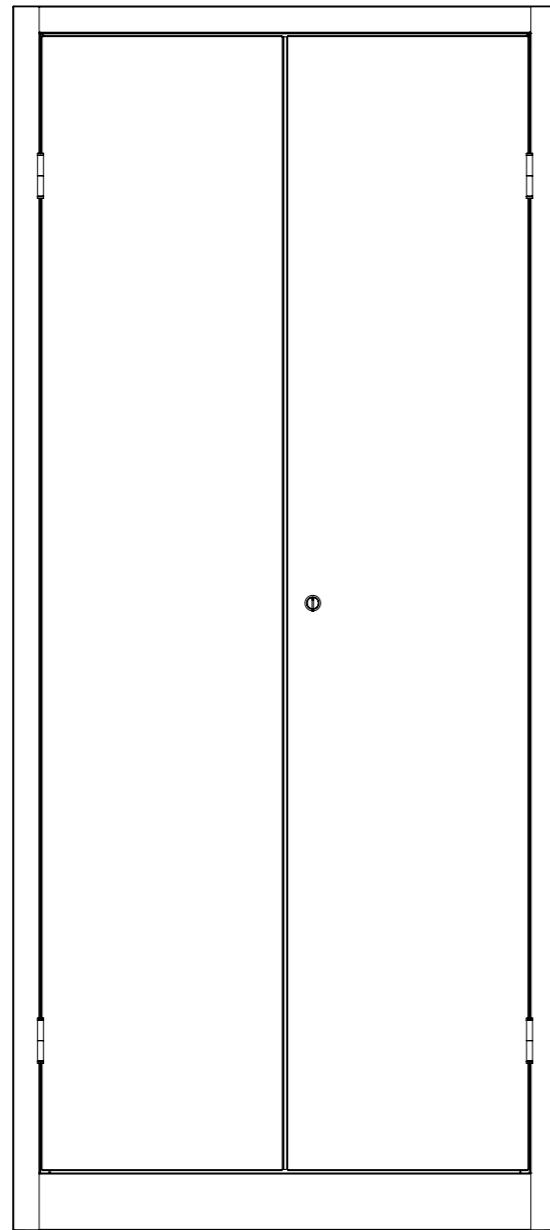

Cabinets for police forces, fire departments, for containing pesticides or flammable liquids. The product range is completed by all-purpose, cleaning and plastic-coated outdoor zinc cabinets.

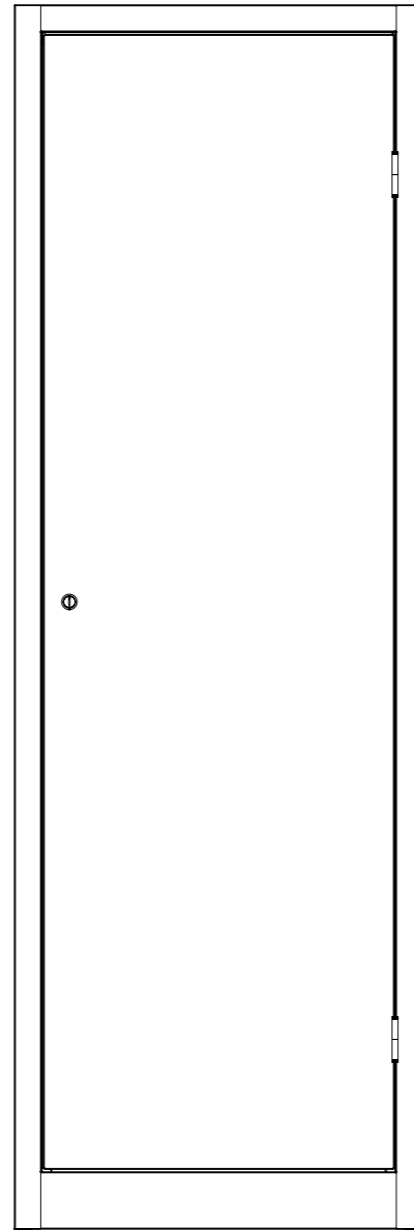

Depth: 400/500 mm
Width: 500/540/600/800/950/1000 mm
Height: 800/1000/1800/1950/2000/2160 mm
 Different types of internal customizations and accessories.

mm. 600x500x1950h

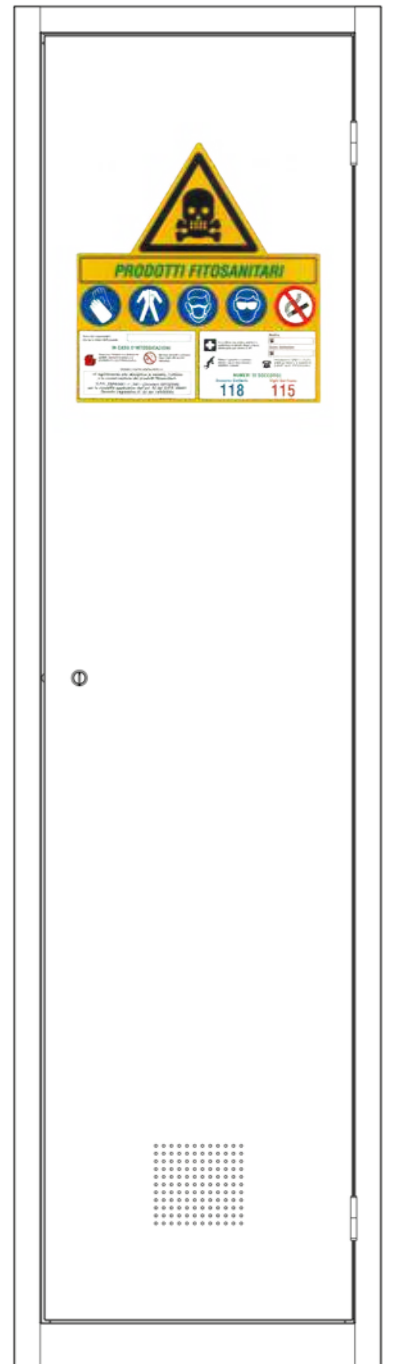

mm. 800x400x1800h

mm. 600x400x1800h

Solutions for specific requirements. These products are the result of a practical design, with special attention to the aesthetic aspect.

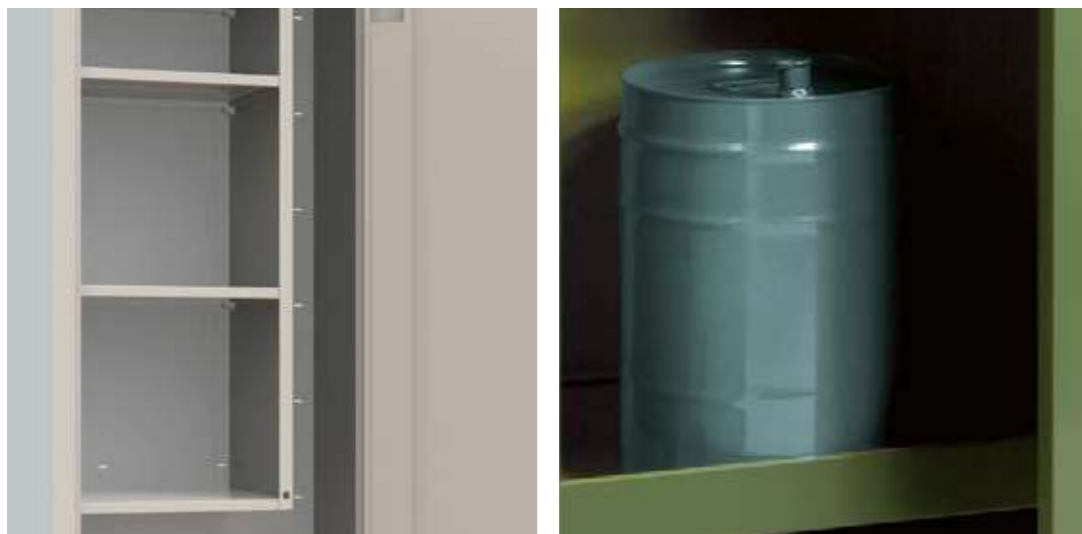

This series is designed for special applications: for flammable liquids (with label according to the norm, slitters with protective net, earth wire), for chemical products (with label according to the norm and safety containers), for outdoor use (coated zinc cabinets for cleaning equipment and cleaning products), for the food industry (made of stainless steel, ideal for hotels and restaurants), for firefighters or police forces (two versions, for dormitory and departure hall). Made of first quality steel sheets with refolded edges, doors with 180° opening angle with theft-proof hinges. Painting with epoxy-polyester powder carried out through automatic machinery according to the following phases: phosphate-treatment, flushing, drying, powder projection with electrostatic procedure, powder polymerization at 180°.

mm. 540x500x2000h

Example of furniture with cabinets for the containment of accessories in the company canteen area.

On the left, internal details: detergent compartment, liquid drip tray, equipped as a fire department cabinet.

On the right, cabinet for flammable liquids in the color yellow (dimensions 1000x460x1800 mm) and cabinet for chemical products in the color green (dimensions 1000x450x2000 mm), both with standard adhesive and tub shelves.

The quality of raw material as absolute standard.

Material transformed through innovative machineries

The warehouse organization provides speed and delivery precision.

Industrial products built with respect for nature.

Models

There can be many reasons why to choose a cabinet rather than another one. For its capacity, size, for its price or - why not - for its aesthetic value. It is important **to know exactly which wardrobe the customer is looking for.**

Armet has investigated all possible combinations to provide the right solution for every need
